

# IF IT'S AN ARCADE, IT'S THE BEST.

That the ARCADE FILE WORKS at Anderson, Indiana, is the largest and most completely equipped plant for the manufacture of files in the world is a minor point. It's product is what you are interested in, and the Arcade product stands at the head of file production for the common sense reason that their methods and facilities are ahead of their competitors.

Mr. Alfred Weed, who is the superintendent and mechanical head of the company, is one of the oldest file makers in the United States, and has probably taken out more patents on file machinery than any other living manufacturer. The entire plant at Anderson is the product of his skill and practical experience, comprising machinery especially designed for turning out every detail of the work, not only by the most careful and systematic methods, but with the greatest possible saving of time and money. Fifty Cents goes as far here as a Dollar in many of the old fashioned plants. Then, too,

the company owns a tract of natural gas land from which their fuel supply is drawn—the cheapest fuel in the world; and buyers of ARCADE files get the advantage of all these economies by the increased value of the product.

These facts show why it is safe for us to sell files under our guarantee that **THEY WILL CUT FASTER AND WEAR LONGER THAN ANY OTHER FILE ON THE MARKET, OR WE WILL MAKE NO CHARGE.** All our files have Weed's Improved Increment Cut, which equals the best English Hand Cut.

If you use files take advantage of this offer on a trial order, however small. There's absolutely no risk to you in the trial.

# IF IT'S AN ARCADE, IT'S THE BEST.

# THE WORLD'S GREATEST FILE WORKS.

ESTABLISHED 1842.

THERE'S NOTHING STIRS A FELLOW'S BILE  
JUST LIKE A GOOD-FOR-NOTHING FILE.

Write for a copy of "Practical Talks on Files," which every one should have who uses files on his work, or who is at all interested in the subject. It contains many practical points on the use of files. It will be sent to anyone who addresses the New York office, 97 Chambers Street, and mentions this paper.

BUT IF YOU WANT TO SEE HIM SMILE,  
THEN LET HIM USE AN ARCADE FILE.

ESTABLISHED 1842.

"By their works ye shall know them."

PLANT OF THE ARCADE,  
FILE WORKS AT  
ANDERSON, IND., U. S. A.

**B**ACK of an Arcade File stands the most complete and modern file manufacturing establishment in the world, directed by master minds, originators of a distinctly improved product, sold entirely on its merits, the modern plant insuring best quality. Back of an Arcade File stands this guarantee, "that an Arcade File will cut faster and wear longer than any other file made," and as an "earnest" of this guarantee, the Arcade File Works will send to any responsible Hardware Jobber, Wholesaler or Retailer, one dozen Arcade Files, to become the property of the receiver or returned at our expense if the guarantee is not fully borne out in every particular.

There are new points worth knowing about Files, and the best information is condensed into a neat little pocket volume which we will send free to readers of "Hardware" while they last. Ask for "Practical Talks on File Work," and perhaps you would like to know about prices.
